AI-Driven Platforms

## PROFESSIONAL SUMMARY

Adept in industry-standard programming languages and agile methodologies using modern technologies, highly self-motivated, goal-oriented, and results-driven IT Specialist with **1 year** of technical experience, currently finished 1 project and working with a new project, in an international, multicultural and multiple teams, on the development process and creation of large-scale and high-quality software systems, following global standards and trends.

A local government unit scholar, an ambitious working student of **Applied Degree in Software Engineering** in Singapore and **Bachelor of Science in Information Technology (BSIT) Major in Software Engineering** in the Philippines, in an international hybrid program (work-study model), with strong academic foundation.

Capable of working both independently and in a team environment. I am a great team player who supports co-workers to achieve the team's goal and value accountability. I am a quick learner with keen interest in self-developing, passionate for technology and innovation, with strong work ethic and committed to delivering high-quality work and exceeding expectations.

Seeking a challenging role in an **intermediate-level post** in a fast-paced environment, where I can leverage my skills, knowledge and experience to contribute to a dynamic, talented and committed team while building a long-term successful career with your organization.

## WORK EXPERIENCE

### 1. TECHNOLOGY ASSOCIATE (Internship)

Employer: EDUCLAAS PTE. LTD.

Singapore  
 Nov 21, 2024 - Present

+65 6324 9730  
 [www.educlaas.com](http://www.educlaas.com)
